

# P-OFF™

Powered by **ProVetLogic**

## *Bio enzymatic Synthetic Pet Turf & Floor Cleaner*

*Deodorizer &  
Drain Maintainer*

Synthetic turf, kennels, dog runs or play area surfaces can be made up of a variety of complex textures, cracks and crevices, becoming a magnet for soils. This is the perfect environment for the “HOST”, or odor and disease causing microorganisms to migrate and multiply. Soiled synthetic turf, concrete and other porous surfaces invite a multitude of negative impressions related to cleanliness, hygiene and safety. **P-OFF by ProVetLogic** is a high performance, bacterial-enriched synthetic pet turf cleaner, concrete floor cleaner, odor eliminator, organic waste degrader and floor drain maintainer.

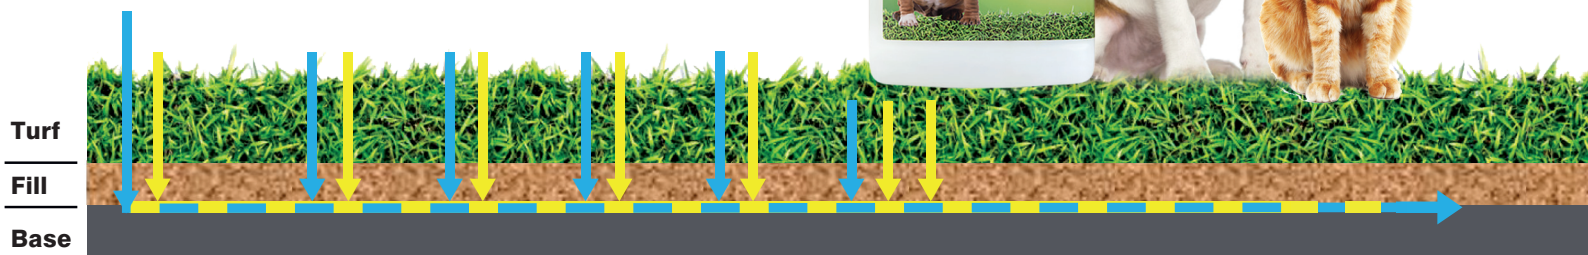

-  **Degrades Odor & Disease Causing Organic Matter**
-  **Controls Toxic Ammonia**
-  **Recommended by Leading Manufacturers of Synthetic Pet Turf**
-  **Veterinarian Recommended**
-  **Nontoxic & Environmentally Friendly**
-  **Pleasant Smelling**
-  **Easy to Use**

# P-OFF™

Powered by **ProVetLogic**

Unlike standard cleaners and deodorizers, the active ingredients in **P-OFF** will penetrate the turf surface, travel through the fill material and into the base substrate. The solution will follow the path of the animal urine and other waste matter and continue to degrade the disease and odor causing organic matter until it is **eliminated!**

## DIRECTIONS FOR USE:

**P-OFF** can be applied using a garden style pump-up spray or foam gun.

### For Light Duty Cleaning:

Dilute 60ml of product per 4 litres of water, apply to surface, allow to dwell for 3 to 5 minutes and agitate if needed. Rinse thoroughly with clean water.

### For Medium Duty Cleaning:

Dilute 120ml per 4 litres of water, apply to surface, allow to dwell for 3 to 5 minutes and agitate if needed. Rinse thoroughly with clean water.

### For Heavy Duty Cleaning:

Dilute 240ml per 4 litres of water, apply to surface, allow to dwell for 3 to 5 minutes and agitate if needed. Rinse thoroughly with clean water.

### For Synthetic Turf Cleaning:

Pick up any dog waste. Dilute 120mm to 240mm in 4 litres of water, apply to surface, allow to dwell for 3 to 5 minutes, agitate if needed and rinse thoroughly to ensure that solution gets under the turf and into the substrate.

## PRODUCT SPECIFICATIONS

Color:	Green
Odor:	Fresh Linen
pH:	9.0 – 10.0
Viscosity:	Water thin
Foam:	Moderate
Phosphate:	None
Solubility:	Complete
Emulsification:	Excellent
Detergency:	Excellent
Risibility:	Excellent
Flash Point:	None
Biodegradability:	Complete
Storage/Stability:	1 year
Freeze/Thaw Stability:	Keep from freezing

## Call for Available Sizes

NOTE: The surface odor may increase following the first application and require a second treatment to remove old, imbedded organic matter.
