# THE FAMILY

All Seasons Synthetic Turf was proudly founded by the Fellows family: Steve, Sylvia, Tom, and Stix - with a unified vision: to offer Australia's most trusted, premium synthetic turf solutions, built to withstand every season.

As a family-owned business, we are passionately committed to exceptional customer service and innovative products tailored towards Australia's diverse climate.

Choosing All Seasons Synthetic Turf means more than just investing in a top-quality lawn, you're partnering with a family dedicated to excellence, reliability, and personalised care.

From your first contact with our team to the final installation of your new turf, we provide attentive, transparent communication and support every step of the way. Our mission is to enhance your outdoor living experience throughout the year, delivering outcomes that truly stand the test of time.

Building on the success and values of All Seasons Synthetic Turf, our family has also developed a range of complementary businesses, including the eco-friendly cleaning product company P-Off, All Seasons Green Walls, and All Sands & Soils, each dedicated to improving outdoor environments in unique and sustainable ways.

# OUR VISION

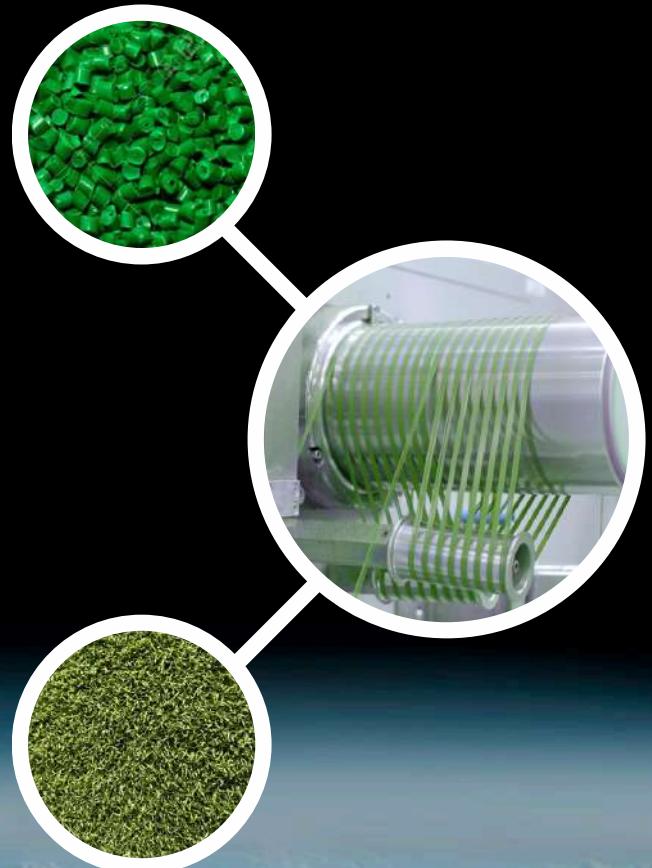

Greener · Tougher · Better

Market Leader Vision

## PIONEERING THE FUTURE OF SYNTHETIC TURF

All Seasons Synthetic Turf envisions a world where sustainable living harmonises with superior innovation, premium quality and pet friendly environments to lead the artificial grass industry. Our commitment is to provide synthetic turf solutions to both enhance outdoor and indoor spaces and simultaneously nurture our planet. Through relentless pioneering and eco-conscious practices, we strive to redefine standards when developing our state-of-the-art products through our Artificial Intelligent Grass (AIG), whilst consistently providing excellent customer service.

The future is All Seasons.

# THE JOURNEY SO FAR

From humble beginnings, the Fellows family started the All Seasons journey from their family shed. Since then, the team have opened up three locations: Port Kennedy WA, Wangara WA & Braeside VIC, continuing to expand across Australia, developing 100% Australian made products.

# POWER OF THE SILVERBACK

AUSTRALIA'S #1 ARTIFICIAL LAWN

Our range of Silverback Lawns products are the toughest, softest, most realistic and most sustainable in Australia. Designed specifically for those with pets & children at home, with a wide range of innovative features to make choosing your new lawn easy, also coming with a lifetime warranty.

- Cool-Off™ Infill helps reduce surface the temperature of synthetic turf.
- As the turf heats up, moisture in the infill is released.
- This evaporative cooling process removes heat from the surface.
- Especially effective on hot days with direct sunlight.
- Specifically designed to keep synthetic turf cooler in extreme heat.

# AUSTRALIA'S 1<sup>ST</sup> SYNTHETIC GRASS MADE WITH SUGARCANE TECHNOLOGY

MADE FROM RENEWABLE SUGARCANE TECHNOLOGY, THIS ECO-FRIENDLY TURF OFFERS ALL THE BEAUTY AND SOFTNESS OF NATURAL GRASS, WITHOUT THE MAINTENANCE OR ENVIRONMENTAL IMPACT. IT'S THE IDEAL CHOICE FOR FAMILIES WHO CARE ABOUT SUSTAINABILITY, WANT A CLEANER HOME ENVIRONMENT, AND LOVE THE IDEA OF A LAWN THAT STAYS GREEN ALL YEAR.

-  SUGARCANE CAPTURES CO<sub>2</sub>
-  SUGARCANE IS CRUSHED MECHANICALLY
-  EXTRACTED BY-PRODUCT IS FERMENTED TO CREATE ETHANOL
-  UNDER HEAT AND PRESSURE, WATER IS REMOVED TO CREATE ETHYLENE GAS
-  THE GAS IS TRANSFORMED INTO SMALL POLYETHYLENE BEADS
-  THE COOLPLUS™ TECHNOLOGY IS ADDED TO THE BEADS TO KEEP THE PRODUCT COOL
-  YARN IS EXTRUDED IN THE MELBOURNE FACILITY
-  SUGARCANE SILVERBACK IS THE WORLD'S FIRST ENVIRONMENTALLY FRIENDLY SYNTHETIC LAWN!

## Serious About Safety Spaces

You can choose from our extensive range of high-performance sporting turfs, as used in the last six Olympic Games. Whether it's a premier sporting facility, an educational centre, or a local gym, our advanced synthetic turf is perfect for basketball, FIH-approved hockey, FIFA & AFL-approved hybrid football, tennis, golf, and more.

# BRING YOUR LOGO TO LIFE

Your turf doesn't just have to be green. At All Seasons Synthetic Turf, we offer complete logo and design customisation using our wide range of vibrant, UV-stable turf colours. Whether it's a school emblem, team crest, company logo, or safety message, we can precision-cut and install custom designs directly into your synthetic surface.

## High-Impact Branding

Showcase your identity at entrances, sports fields, playgrounds, or muster points. Ideal for schools, councils, businesses, and sporting clubs.

## Durable, Long-Lasting Colours

Our coloured turf is UV stabilised and built to handle high foot traffic and extreme weather, so your design stays bold and sharp.

## Endless Design Possibilities

Choose from a wide range of colours, shapes, fonts, and layouts. If you can dream it, we can lay it.

# SOFTFALL RUBBER SAFETY SURFACING

**When it comes to playgrounds and active spaces, safety is non-negotiable. Our softfall rubber surfacing offers a high-impact, slip-resistant, and low-maintenance solution that meets Australian Standards for fall height compliance and child safety.**

## ► **Tested for Safety**

Compliant with AS 4422:2016 standards for Critical Fall Height (CFH) protection; reducing injury risks from falls off play equipment.

## ► **Custom Colours & Fun Designs**

Add bright, engaging colours, patterns, or playground games (hopscotch, numbers, animal tracks) to stimulate play and imagination.

## ► **Low Maintenance & Long Lasting**

UV-stable, durable, and easy to clean. Designed to perform in harsh Australian conditions with minimal upkeep.

## ► **Inclusive & Accessible**

Softfall rubber provides a smooth, even surface suitable for prams, wheelchairs, and all abilities access.

## **PERFECT FOR:**

- ✓ Primary Schools
- ✓ Early Learning & Daycare Centres
- ✓ Parks & Council Playgrounds
- ✓ Inclusive Play Zones
- ✓ Outdoor Classrooms & Sensory Spaces

# School

# Safety

**At All Seasons Synthetic Turf, we create environments where children can play, learn, and grow safely.**

#### ► **Site Assessments & Risk Planning**

Before any work begins, we assess the site for existing hazards (e.g. uneven ground, drainage issues, trip risks) and create a tailored installation plan that ensures long-term safety and compliance.

#### ► **Certified Impact-Absorbing Surfaces**

We offer softfall rubber and compliant underlays beneath turf to meet AS 4422:2016 standards for fall heights around play equipment, which is essential for kindergartens and primary schools.

#### ► **Non-Toxic, Child-Safe Materials**

Our turf and softfall products are free from lead, heavy metals, and harsh chemicals. They're safe for hands, knees, and even curious little mouths.

#### ► **Low-Maintenance, Hygienic Surfaces**

Our synthetic surfaces don't harbour bacteria or allergens like natural grass or mulch. Easy to clean and drain, they're ideal for high-use school environments.

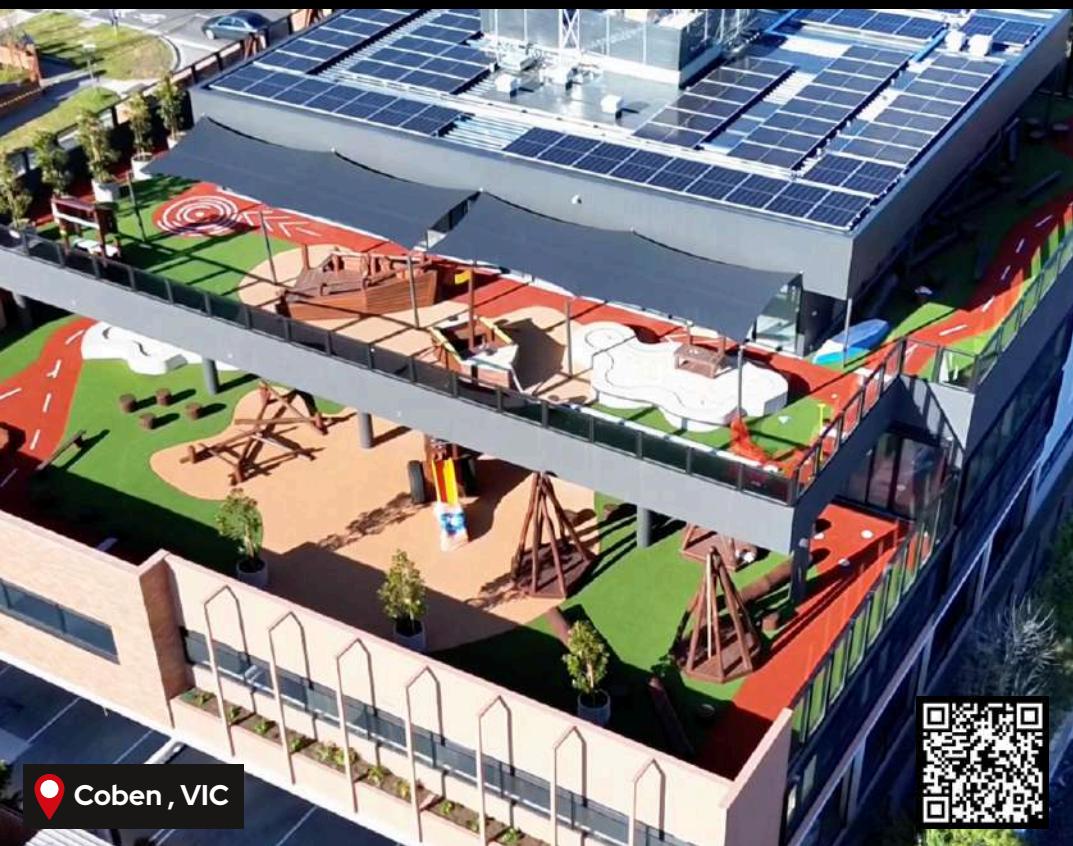

# EXCELLENCE UNDERFOOT

- Trusted provider of synthetic turf for schools, universities, and early learning centres
- Safe, durable, and low-maintenance surfaces ideal for high-traffic educational environments
- Custom solutions for play areas, sports fields, and recreational green spaces
- Designed to meet strict safety standards, ensuring peace of mind for staff and families
- Year-round usability with a clean, professional look that enhances any campus
- Proven experience working with education facilities across Western Australia
- Committed to quality, reliability, and service from installation to aftercare
