

SILVERBACK LAWNS™

Silverback Lawns V8 range provides a variety of technologies, including Sugarcane Technology, COOLplus Technology, Silver-Based Antimicrobial Technology, Antistatic Technology, Double Drainage & Triple Backing

It is the most natural looking artificial lawn on the market, fully textured yarn, with minimal shine & a perfect matte finish.

Double drainage, means easy cleaning and provides safer areas.

Silverback Lawns have 250 micron thick fibre, making it suitable for FIFA approved systems and commercial areas.

Triple backing, which means extra strength for pets, children and high traffic areas.

Affordable with a great return on your investment.

High density construction provides robust yet comfortable support underfoot and assists greatly with pet clean-up and removal of unwanted debris, such as leaves, gum nuts and pet waste.

Silverback Lawns unique texturised yarn resists flattening. It has monofilament fibres which are heat texturised.

Use in conjunction with P-Off Infill For Pets for an odour free lawn.

Clean & safe polymers means there are no contaminants to cause ongoing reactions and failure of the yarn. 100% lead free.

100% Australian made, with an industry leading **Life Time Warranty**

Fire Rated AS/ISO 9239. 1-2003
